Greetings

We are here for "*Service*" and if we can be of assistance to you in any way, please feel at liberty to call.

Nothing would please us more than to have you give our nurseries a personal visit. Come and see us first hand. It will do us both good to get better acquainted.

Send us your Surplus List and your Catalog. Oftentimes we are able to use other stock, for we sell at retail as well as wholesale.

Keep this Price Book for reference so you can get at it handily.

Drop us a line. Our address and phone number is:

TERMS

Prices herein are net F. O. B. Portland, Oregon, when packed in bulk, or if boxed or baled, cost of such packing will be added when invoiced.

Cash or satisfactory reference before shipment is required. To established Nurserymen who are known to us or who give satisfactory references, a credit of 60 days from date of invoice will be given, a discount of 3% for cash with order, 2% in 10 days, 1% in 30 days will be allowed. All bills are due and payable sixty days from date of invoice. Interest at the rate of 8% per annum will be charged on all past due accounts.

Prices quoted are for first-class stock in the grades named, 5 of a variety will be furnished at 10 rate, 50 at 100 rate, and 500 at 1000 rate.

Grade standards adopted by the P. C. A. of N. are followed by us. Orders should conform to same.

If it is desired that we send another variety when out of the kind ordered, instruct us accordingly, as we do not substitute unless so ordered.

Digging and shipping season begins with us in October, and continues into April with but little interruption on account of climatic conditions.

GUARANTEE OF GENUINENESS

We exercise care to have our trees and plants true to name and will upon proper proof replace free any trees or plants that prove untrue to label. It is, however, understood and agreed between the purchaser and ourselves that we are not to be held liable for any sum greater than that paid us for such trees that may prove untrue.

Orders are accepted by us only upon the mutual agreement between the purchaser and ourselves that we shall not be held responsible for other damages.

Claims, arising from any cause, must be made promptly on receipt of shipment. We cannot entertain claims made after stock has been accepted. All claims must be filed within ten days after shipment has been received from carrier.

NOTICE

Ownership passes and all Nursery stock shipped by us is at the risk of purchaser upon being delivered in good condition to carrier at point of shipment. Any and all claims for damage in transit should be filed immediately with agent of carrier at point of delivery.

Certificate of Horticultural Inspection will accompany each shipment.

This trade list cancels all previous prices and quotations made.

All orders are accepted by us on condition that they shall be void should injury befall the stock from any cause over which we have no control.

State plainly in ordering whether we shall ship by Freight, Express, or Parcel Post. If by Freight, name transportation line over which shipment is to go.

Supply and demand ever will be the yardstick that measures values. The supply of tomorrow may change the value of yesterday in any commodity and also the demand of tomorrow may quickly change the price value of yesterday. We are always ready to meet the conditions of today. We reserve the right to change our prices without notice.

The Young Berry

The Young Berry is a money-maker—it has been planted extensively in California and has proven itself commercially.

The Young Berry is quite dark in color, apparently free from heavy core and seeds, and the flavor is delicious.

The habit of growth is similar to that of the Logan-berry. Their care and cultivation does not differ much from that of the Logan-berry.

Here is a splendid chance to “cash in” on this new berry plant. Your customers are expecting something that will yield them quick returns. The Young Berry will serve the purpose, for it will can, dry or sell as fresh fruit. It is our opinion that for extract and juice purposes, it cannot be surpassed.

PUSH THIS PLANT NOW—The fruit market is ready for something new. Take advantage of it and get busy.

We can supply the Young Berry plants at reasonable cost. Many orders have already been booked for Early Spring Delivery.

The Prinlew Plum

The Prinlew Plum was originated by H. A. Lewis, the founder and owner of Russellville Nurseries.

The original tree still stands, having come from seed which was evidently double polinated from the parent tree. This insures a standard fruit with absolutely no possibility of reversion.

One of the most delicious fruits known, with a peach flavor, juicy and sweet.

Can be eaten before it is fully ripe, which makes it very desirable over a longer season.

Fruit ripens in August, when there is a general scarcity of tree-fruits.

Splendid to eat from hand or for canning. Eight of these plums in the 2½- pound ordinary can. The fruit is larger than the well known Bradshaw Plum and far superior in flavor. When canned, they have a delightful sweet twangy flavor that cannot be equalled by any other prune or plum.

One of the best road-side market plums known. The splendid light blue color with the light maroon-red cheek makes it very attractive and they sell on sight. Your customers come back for more.

The tree is a regular and heavy bearer—thrifty and sturdy grower—and has been known to do well under many different climatic conditions.

It is a money-maker for the owner. You cannot afford to be without it.

Introductory price on extra first grade tree. Dealers may obtain these trees at the following special prices. Less than 10 quantity, \$1.00 each. We suggest that you order more than ten, for in this way we can allow you the hundred rate of 35 cents each.

You can easily afford to boost the “Prinlew Plum.” One taste of this luscious fruit will convince you of this fact. Let us tell you more about it!

Seedlings

Oregon-grown under most ideal soil and climatic conditions by white American labor. Superior to imported stocks. Dug, graded, packed and shipped direct to you by the grower. Start the foundation of your nursery right, then you'll be right all along the way.

Roses — Oregon Grown

They are different. They are better.

The superior quality of our Oregon-grown field budded roses is now an established fact. For several years past the big eastern distributors have been using Oregon roses in car lots, coming back for more and more.

Our two year roses are grown and matured by the most approved methods. Irrigation is not practiced. Our Columbia River sandy loam soil, our ideal climatic conditions, and the proper cultural methods insure and produce the very best root system.

When grading we tie in bundles of ten. Orders should be for not less than five of a kind. We can and will break bundles to serve our patrons, but must charge extra for handling when numerous small lots are wanted. Make your order conform as nearly as possible to ten of a kind.

In our list you will find many new and rare varieties of recent introduction. A pleased eastern customer wrote us on March 14 this year: "These roses are the finest I have ever received in twenty-five years' experience with roses."

For Beautiful Lawns and Gardens

All plants require a complete, balanced diet for full growth and beauty. The best seed or plants will not produce good results if grown in a soil which is deficient in any one of the many necessary food elements.

For velvety-green lawns with deep, extensive roots; large, beautiful flowers; luxuriantly foliaged shrubs and trees; and early, delicious vegetables, feed them Vigoro, the complete, scientifically balanced food for all plants, and you may be sure your plants have all the nourishment they need.

Vigoro is easy to use and economical. Simple directions for feeding everything you grow accompany each bag or package. Vigoro is used annually on 3,000,000 homes. We recommend it.

*A square meal for
lawns and flowers
is 4 lbs. of Vigoro
per 100 sq. ft.*

The Vigoro Spreader applies Vigoro, grass seed, and other materials evenly and accurately. Write for prices and full description.
